

Patient Protection & Affordable Care Act (PPACA) Formulary

List of Preventive Care Drugs - Covered for \$0.00 copayment With preventive care services under the Affordable Care Act, several therapeutic classes of medications must have therapies available to

With preventive care services under the Affordable Care Act, several therapeutic classes of medications must have therapies available to members without any member cost-share. In short, the following list of medications are available to members for a \$0 copayment. If a member opts to use a medication within these therapy classes and the medication is NOT listed below, the member will have a cost-share based on the plan design (Tier 3 Copay on Alternative). However, in the case of the contraceptives, this list is merely a guide and not all-inclusive. Members are encouraged to speak to their providers regarding the treatment that best fits their needs.
